Sir:

Responsive to the Official Action date 04 / 20 / 2004, please amend the
above-referenced Patent Application as following:

AMENDMENT

IN THE SPECIFICATION

Please add the following section to be between the line 4 and 5 of the page 5 of the original specification. The added section is based on the original claims 1 and 2 and Figs. 7 and 9 of the present invention, that is, to combine the features of claims 1 and 2 and feature in Figs. 7 and 9. The relation of this part to the original specification can refer to the following remark about the List of claims which has an part identical to the added section. Thereby, it can assure that no new matter is added.

ADD SECTION TO BE BETWEEN THE LINE 4 AND 5 OF THE PAGE 5 OF THE ORIGINAL SPECIFICATION.

A middle section 46 is between the front portion 30 and the rear portion. The middle section has two sides. One side is connected between the inclined surface 31 and the inclined surface 37; and the other side is connected between the inclined surface 32 and the inclined surface 38. Each of the two sides is concave into the club body. In a direction from the handgrip 8 to the club head 9, the club body 3 has, at least one reduced segment 40 having a smaller size than other portion thereof, and a shoulder 43 encloses a respective end of the reduced segment 40 is formed between each reduced segment 40 and an adjacent portion of the golf club. The reduce segment 40 is reduced from all of one edge of the adjacent portion.
